Plant A Tree For Your Self Plant A Tree For Your Children

Why Trees ??

50

MATURE TREES

can intercept into 25,000 gallons of water annually

100

TREES

can sequester up to 4,800 pounds of carbon per year

250

TREES

Provide enough oxygen each year for 125 people to breathe clean air

Where??

The Pledge and Plant a Tree Programme, started in 2008, is a yearly event by the Malaysian Institute of Planners (MIP) organized in conjunction with the World Town Planning Day celebrated in November every Year.

This Year, the programme is organized with 4 Authorities Body (**Perbadanan Putrajaya, Majlis Perbandaran Kuala Terengganu, Majlis Perbandaran Nilai and Majlis Perbandaran Kulai**) as part of the 2017 National Planning Festival in conjunction with 2017 World Town Planning Day. This programme aims to bring organizations, communities and individuals together in greening an urban park with more trees for better shading and comfort as well as to reduce carbon emission.
